## Here's how you can join us:

1

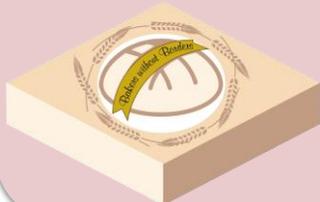

### Use Our Game:

Become a **'Baker Without Borders'** with our non-competitive educational game, winner of the **UN Global Award for Intercultural Innovations 2016!**

The **three** included sub-games bring diverse people together through **bread, arts, and play** to solve **community issues** together and get educated in **social entrepreneurship!** It is especially beneficial for social support centers, youth centers, schools, community/intercultural/refugee organizations, bakeries, and social businesses.

If you plan to open your own social bakery, we will train you in our **unique recipes** for sourdough bread and pastries, as well as our **various paid services** (from special birthday and corporate parties to community festivals and open community baking events).

For us, a social bakery is a 'company' in the *real* sense of the word (from Latin, **cum panis = sharing bread with friends!**)
